

CL600/610

SYSTRONIC 

Inline – Spray in air cleaner

- **Cleaning, rinsing and drying of PCB + DCB**
- **Meshbelt or pin chain transport**
- **Throughput depending on part size**
- **Completely built in stainless steel**
- **Efficient drying in separate chamber**
- **Environment-friendly, closed loop**
- **Customized sizes possible**

Capacity:	Depending on size of pcb/carrier and process times
Throughput :	Customized
Chemistry:	pH-neutral or alkaline / DI-water
Application:	Cleaning of PCB / DCB / carriers
Outside dimensions:	6000x2000x1500mm (customized possible)
Usable chamber size:	Customized / depending on product size
Process time:	Customized / depending on product size
